DETAILED ACTION

The following action is in response to the amendment filed for application 10/603,855 on December 13, 2004.

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the power transmission as claimed, and particularly including a second layshaft driveably connected through a second power path and a one-way drive connection to the input, supporting a second pinion thereon, and including the remaining structures of claims 1 and 14, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Pires, Ruth and Show have been cited because they were cited by the applicant in the specification.
